### Category

Structure

Locomotive

Rolling Stock

Entry Title \_\_\_\_\_

Description \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

- All models must be "G" gauge (Scaled for Outside Gardens) and may not have won in the same category entered in a previous NGRC Model Contest.
- The owner/entrant must have done most of the modeling work themselves. The Machine Built category is for models mainly machine made. The other categories do not exclude some machine built parts.
- A brief description of your model, photos of the prototype and the work you've done may be displayed with the model but we ask that the model remain anonymous with no reference to the model builder.
- Our experienced Model Contest Coordinator has the final say into which category the model will be entered, and we reserve the right to combine, change, add, or otherwise modify categories to fit the quantity of models entered into the contest.
- The entrant agrees to release Tulsa Garden Railroad Club, NGRC, Hotels and Volunteer personnel from any liability due to damage or loss of the entry.
